Educational Sessions and Speakers

GENERAL SESSION 1

ASC Opportunities and Challenges

Ambulatory Surgery Centers (ASCs) face unique opportunities and challenges among healthcare providers. ASCs offer a high-quality, cost-effective alternative to surgical procedures conducted in the hospital, but there are significant operating challenges that can impact their bottom line. On the bright side, growth is expected to continue at ASCs as Medicare and private payers favor the lower costs of ASCs when compared to hospitals.

- [Enhanced Recovery After Surgery](#) – Tong J. Gan, M.D.
- [Emergency Preparedness](#) – J. Lance Lichtor, M.D.
- [Managing Personnel](#) – Arnaldo Valedon, M.D.

GENERAL SESSION 2

Accreditation and Regulatory Issues

In today's rapidly evolving healthcare landscape, anesthesiologists play an essential role in patient safety and health care quality. Physicians are responsible for maintaining practice compliance with regulatory and accrediting organizations. In this session, attendees will be updated on the latest trends from Accreditation Association for Ambulatory Health Care (AAAHC), American Association for Accreditation of Ambulatory Surgery Facilities (AAAASF), the Joint Commission and Quality Management & Departmental Administration (QMDA).

- [Accreditation Association for Ambulatory Health Care, Inc.](#)
– Meena Desai, M.D.
- [American Association for Accreditation of Ambulatory Surgery Facilities, Inc.](#) – Hector Vila, M.D.
- [Joint Commission](#) – Beverly Philip, M.D.
- [Quality Management & Departmental Administration](#) – Don Arnold, M.D.

GENERAL SESSION 3

Quality and Outcomes

Participants will be able to identify important quality and outcome measures for their ambulatory practice and learn how to utilize that data to improve patient care. Quality measures and outcomes as they pertain to different practice models will be discussed.

- [Using SCOR to Improve Quality & Outcomes in Your Practice](#)
– Karen Carlson, M.D., M.B.A.
- [PSH and Safety](#), Douglas Merrill – M.D., M.B.A.
- [Patient Selection in Ambulatory Surgery](#), Girish Joshi – M.B.B.S., M.D., F.F.A.R.C.S.

GENERAL SESSION 4

Practice Management

This panel will provide an opportunity to discuss some practical and proven methods of improving quality and reducing costs in the ambulatory surgery environment. The focus will be on the presenter's personal experience of opportunities for improvement and efficiency.

- [Selecting a Billing and Management Company & GPOs](#) – Scott Mayer or Josh Gantz
- [Making Smart Choices in a Changing & Consolidating Market](#)
– Judith Jurin Semo, J.D.
- [Lean Management: Making Changes to Your Practice That Last](#) – Chris Jankowski, M.D.

GENERAL SESSION 5

State of the Art

This session is intended to provide the attendee with an in-depth understanding of total intravenous anesthesia (TIVA) and ways to improve this anesthetic technique.

- [Improving TIVA with EEG](#) – Donald Matthews, M.D.
- [Improving TIVA with Pharmacokinetic Modeling](#) – Dhanesh Gupta, M.D.

GENERAL SESSION 6

Cases from the Real World

During this session, attendees will examine actual case scenarios and integrate various methods of care and strategies for preclinical problem solving for ambulatory surgical patients into their daily practice.

- [Girish Joshi](#) – M.B.B.S., M.D., F.F.A.R.C.S.

GENERAL SESSION 7

Important NORA Questions in 2016

With the growing national trend to perform more procedures outside of the traditional hospital operating room, anesthesiologists need to have best practices in place to ensure patient safety, minimize risk and create successful outcomes. NORA experts will address some of the leading concerns about performing procedures in remote locations.

Moderator – Donald Mathews, M.D.

Do I Have the Right NORA Policies? NPO, Escort, Discharge, Etc. – Basem Abdelmalak, M.D.

Is My NORA Workplace Safe for Both Me and My Patients?
– Mark C. Phillips, M.D.

Am I Causing Patient Harm? Deep Propofol Sedation and Aspiration – Sekar S. Bhavani, M.D.

Am I Causing Patient Harm? Pediatric Neurotoxicity and NORA – Ann Lawrence, D.O.

GENERAL SESSION 8

Challenging Patients, Difficult Situations

With improvements in surgical and anesthesia practice, the number of procedures being performed on an outpatient basis has increased. Patients once considered inappropriate for ambulatory surgery are now considered appropriate. The panel will discuss the challenges of some high-risk patients in the ambulatory surgical center.

How to Keep the Saturation Up When the Weight's Up Too! – David Wong, M.D.

Dealing with Neurological Disease in the ASC – Mary Ann Vann, M.D.

Don't Let Your ASC Get "Celebrity Syndrome" – Fred Shapiro, D.O.

GENERAL SESSION 9

OBA

For anesthesiologists opening and operating an office-based practice, there are numerous considerations for best designing and managing the practice. Attendees will learn from colleagues in the trenches.

Starting an OBA Practice – Hector Vila, M.D.

OBA Outcomes and Lessons Learned – Fred Shapiro, D.O.

The Ideal OBA Anesthetic – State of the Art – Steve Smith, M.D.

GENERAL SESSION 10

Latin American Panel

The attendees will be able to compare and contrast ambulatory anesthesia practice in Latin America vs. the United States. Panel will be conducted in Spanish with English translation provided.

Moderator - Arnaldo Valedon, M.D.

Strategies to Develop an Ambulatory Surgery Center: I Want to Develop an Outpatient Surgery in my Country: What Do I Have to Do? What Do I Have to Know? – Alejandro Recart, M.D.

Quality, Safety and Accreditation in Ambulatory Surgery: Why is it Important? Complications and How to Handle Them, When to Transfer a Patient for Tertiary Care? – Victor Davila, M.D.

Ambulatory Pre-operative Evaluation (to include sleep apnea),
Leo Rodriguez, M.D., F.A.A.P.

Ambulatory Plastic Surgery in Latin America: How to Avoid a Liposuction Catastrophe/Preventing Deaths in Plastic Surgery/Sedation in Plastic Surgery/Fluid Management for Outpatient Liposuction – Jorge Bayter, M.D.

Anesthetic Techniques, Analgesia and Prevention of PONV, State of the Art – Jorge Rubio, M.D.

Regional Anesthesia in Ambulatory Surgery/Anesthetic Technique: Ambulatory Spinals? – Andres Macias, M.D.

The Future Models of Ambulatory Surgery in Latin America? Interactive Lectures with Clinical Cases/Voting Attendees in Real Time – Victor Davila, M.D.

Educational Sessions and Speakers

Consult the Experts

These small group sessions are specifically designed to provide an opportunity for open and detailed discussions of relevant ambulatory anesthesia and surgery topics. Expert speaker session formats may range from a relatively unstructured “open house”, where attendees can stop by and ask specific questions to prepared introductory topic remarks followed by open discussion by the small group.

Friday, May 6

3:15 pm – 4:15 pm

Neurological Disease – Mary Ann Vann, M.D.

Emergency Preparedness – J. Lance Lichtor, M.D.

4:15 pm – 5:15 pm

Obesity – David Wong, M.D.

Accreditation/Regulatory – Hector Vila, M.D.

Saturday, May 7

3:30 pm – 4:30 pm

Preoperative Evaluation – Bobbie Jean Sweitzer, M.D.

SCOR – Karen Carlson, M.D., M.B.A.

4:30 pm – 5:30 pm

Preoperative Evaluation – Bobbie Jean Sweitzer, M.D.

NORA – Basem Abdelmalak, M.D.

ASA Update

Attendees will gain an understanding of the American Society of Anesthesiologists’ role in an educational, research and scientific association of physicians and delineate how practitioners can use its resources to enhance their patient care and professional activities.

James Grant, M.D. – First Vice President, ASA

Problem Based Learning Discussions (PBLD)

Attendees will discuss and critique the evaluation, management and implementation of patient care in specific ambulatory clinical scenarios.

Friday, May 6

3:15 pm – 4:15 pm

Pediatrics – Ann Lawrence, D.O.

NORA – Mark Phillips, M.D.

4:15 pm – 5:15 pm

NORA – Sekar Bhavani, M.D.

TIVA – Dhanesh Gupta, M.D.

Saturday, May 7

3:30 pm – 4:30 pm

Anaphylaxis – What Do I Do? – Kumar Belani, M.B.

MH in Outpatient Surgery Center – Fatima Ahmad, M.D.

4:30 pm – 5:30 pm

Anaphylaxis – What Do I Do? – Kumar Belani, M.B.

MH in Outpatient Surgery Center – Fatima Ahmad, M.D.

Excellence and Innovation Presentations

Attendees will be able to describe focused ambulatory anesthesia knowledge gained through research as presented by scientific abstract awardees.

Hands-On Regional Workshops

Based on participant expertise, attendees will demonstrate both basic and advanced techniques for peripheral nerve blocks using ‘single shot’ techniques as well as regional catheters for ambulatory anesthetic management. Attendees will also describe common or serious complications of regional techniques and how to both manage and avoid them.

Roy Greengrass, M.D.

Alberto Ardon, M.D.

Barys Ihnatsenka, M.D.

Ralf Gebhardt, M.D.

Justin Lee, M.D.

Resident Focused Program

Saturday, May 7

Resident Hands-On Workshop

1:30 pm – 3:15 pm

Regional Ultrasound Techniques*

*Registration Required (Max 30)

Moderator: Roy A. Greengrass, M.D.

Presenters: Alberto Ardon, M.D.; Barys Ihnatsenka, M.D.;

Program Information

TARGET AUDIENCE

This meeting is designed for anesthesiologists, anesthesia providers, practitioners, nurses and administrators who work and specialize in ambulatory or office-based anesthesia.

ABOUT THIS MEETING

The purpose of this meeting is to educate and share information that will enable anesthesiology practitioners to provide the highest level of ambulatory anesthesia services and improve patient outcomes. Topics for this meeting were selected by various methods. Suggestions for topics were derived from evaluations of the 2015 and

other previous Annual and Mid-Year Meetings. In addition, the Annual and Mid-Year Meeting Committees and Board members review the published literature with the highest impact on the specialty, and solicit suggestions from members of SAMBA active in the clinical practice of ambulatory anesthesia. These suggestions were discussed with educators who attended previous Annual, Mid-Year and Board meetings.

CME ACCREDITATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society of Anesthesiologists and the Society for Ambulatory Anesthesia. The American Society of Anesthesiologists is accredited by the ACCME to provide continuing medical education for physicians. The American Society of Anesthesiologists designates this live activity for a maximum of 22.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLAIMER

The CME activities and information provided at the SAMBA Annual Meeting is for continuing medical education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition.

DISCLOSURE

The American Society of Anesthesiologists remains strongly committed to providing the best available evidence-based clinical information to participants of this educational activity and requires an open disclosure of any potential conflict of interest identified by our faculty members. It is not the intent of the American Society of Anesthesiologists to eliminate all situations of potential conflict of interest, but rather to enable those who are working with the American Society of Anesthesiologists to recognize situations

that may be subject to question by others. All disclosed conflicts of interest are reviewed by the educational activity course director/chair to ensure that such situations are properly evaluated and, if necessary, resolved. The American Society of Anesthesiologists educational standards pertaining to conflict of interest are intended to maintain the professional autonomy of the clinical experts inherent in promoting a balanced presentation of science. Through our review process, all American Society of Anesthesiologists CME activities are ensured of independent, objective, scientifically balanced presentations of information. Disclosure of any or no relationships will be made available for all educational activities.

STATEMENT OF NEED

The SAMBA Annual Meeting provides a forum devoted to ambulatory and office-based anesthesia offering clinically relevant lectures, panels and workshops; highlights of innovative ambulatory and office-based practices; networking opportunities with peers and experts in the field; and exposure to relevant products/services of interest to our attendees in the exhibits area.

SPECIAL NEEDS

The Society for Ambulatory Anesthesia fully complies with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any attendee in this educational activity is in need of accommodations, please contact SAMBA at 312-321-6872.

COMMERCIAL SUPPORT ACKNOWLEDGEMENT

The CME activity is supported by educational grants. A complete list of supporters will be made available in the program guide.
